

logger_interface

```
graph BT; native_string_logger[native_string_logger] --> logger_interface[logger_interface];
```

The diagram illustrates a class hierarchy. At the bottom is a gray box labeled 'native_string_logger'. A blue arrow points vertically upwards from this box to a white box with a black border at the top, labeled 'logger_interface'. This indicates that 'native_string_logger' inherits from or implements 'logger_interface'.
