

logger_interface

```
graph BT; stdout_logger[stdout_logger] --> logger_interface[logger_interface];
```

The diagram illustrates a relationship between two classes. At the top is a white box with a black border labeled 'logger_interface'. Below it is a gray box with a black border labeled 'stdout_logger'. A blue arrow points from the top of the 'stdout_logger' box up to the bottom of the 'logger_interface' box, indicating that 'stdout_logger' implements or inherits from 'logger_interface'.

stdout_logger
